### **GMC's Online Criminal Justice Program Recognized By BestColleges.com**

Georgia Military College's Online Criminal Justice Program has been recognized as one of the [best Public Safety Administration programs in the country](#) for 2018 by BestColleges.com, a leading provider of higher education research and college planning resources. The ranking highlights accredited, not-for-profit institutions who have developed exceptional academic online programs for students looking to advance their knowledge, skills, and career in public safety administration.

GMC Social and Behavioral Sciences Division Chair, Lynda Lamarre, says this recognition by BestColleges.com shows the important work that those in the Criminal Justice field do in today's society.

"In light of recent and current events, we as a society need to have a better understanding of the criminal justice system, our rights, and responsibilities," Lamarre said. "The BestColleges.com recognition further encourages students to enter the program, knowing it is of top quality, and hopefully will lead to a successful career in public service. As more GMC graduates enter the workforce in that field, the program will continue to be promoted and grow, and as a consequence, so will our college. 'Duty, Honor, Country' – our motto in action."
